 (Description of the service being provided; History of service provision) due to the demand of a potential partner-client. It was right in time for implementation of the station's Techno-Demo Project for the mention commodity since 2014. The Organic Production System of Vegetables is the initial engagem of the station towards Organic Farming in support of the program of Office of the Governor of Negros Occidental under "Organic na Negro which aims to make Negros the Organic Food Bowl of the region. 	the ned ent the s",
which aims to make Negros the Organic Food Bowl of the region.	ind
The vegetables that are being cultivated organically include (1) pole a bush snap beans, (2) squash, (3) pole sitao, (4) okra, (5) and ampal (organic in conversion).	iya
The project has three following objectives. First, it aims to demonstrate the Organic Production System of the above-mentioned vegetable durin training activities, exposure visits, and station anniversaries. It also see to produce organic vegetable seeds. Lastly, the project also aims to pro the productivity of snap beans at low- to mid-elevation area, considerin that is a highland growing crop.	ng ks ve
