It aims to raise the level of teaching and learning of science and mathematics in the Philippine educational system. It also aims to be a major source of quality information and services for stakeholders in science and mathematics education. For five decades, UP NISMED has engaged in research, curriculum development, professional development in science and mathematics education, and extension work.</p> <p>With the establishment of the Science Teacher Training Center, a Japanese Grant-Aid in 1989, the Institute has acquired, for its programs, state-of-the-art facilities designed for research, curriculum development, and professional development. These include the following: a library, with a collection of over 18,000 volumes of print and non-print materials; eight fully-equipped teaching laboratories; microteaching room; astronomical observatory; video studio and control room; a workshop for prototype development; printing and photographic equipment; and a 48-room hostel. These provide support for the Institute's operations.</p> <p>Through its programs and projects, UP NISMED strives for relevance, responsiveness, innovation, and interdisciplinary and multimedia approaches. It also aims adapt up-to-date global practices by offering programs in research, curriculum development, professional</p>

	<p>development, as well as by networking with similar institutions in other countries in line with emerging global trends.</p> <p>The Institute has 31 academic (REPS) staff and 39 administrative staff. Two of the academic staff, Ms. Ma. Lourdes Agad, the program producer, and Ms. Lolita Mondigo, host the radio program. They also facilitate the discussion of the topics. The rest of the 29 academic staff and few administrative staff have been invited to serve as resource persons of the radio program.</p>
