| Name of Extension/Public Service (The name of the service being offered) | Postgraduate Training Course in Diagnostic Mycology |
| Objective (Description of the service being provided; History of service provision) | The Postgraduate Training Course in Diagnostic Mycology is an annual professional training or course offering of the department. The course has been offered since the 1980s to dermatology residents, with participation of some medical technologists. Since 2016, the PAPSHPI, Inc. has also reached out to the Department requesting for this training course to be conducted among their members. The course is lecture-based, covering different types of fungal infections, fungal agents, diagnosis, and treatment. It also provides for hands-on laboratory work-up of fungal agents and microscopic demonstrations. |
| Duration/Date | Usually a five-day training course conducted during long vacation breaks |
| Target Beneficiaries | dermatologists, medical technologists, primary skin health physicians, veterinarians and other professionals with interest in different fungal agents, their mycoses, diagnosis and treatment |
| Cost of Participation | PhP 10,000 per participant |
