35	UP System	UP COVID-19 Pandemic Response Team proposes recommendations	<p>Social, economic, and political inequalities are starkly manifested in times of disasters. Taking this into consideration, the UP COVID-19 Pandemic Response Team proposes the following recommendations:</p> <ul style="list-style-type: none"> <li>◆ Adopt more universal/inclusive, rights-based, and lifecycle approaches to social protection given the widening and deepening poverty levels and generalized insecurity among the population due to the Covid-19 pandemic.</li> <li>◆ The DILG can promote inter-LGU equity by assisting and supporting those that need it most. LGUs have uneven capacities and resources. The DILG should ensure that all LGUs are equally equipped to address the needs of their constituents, monitor LGU compliance with current rules and regulations, assist and capacitate LGUs that need some support, and facilitate inter-LGU sharing of good practices.</li> <li>◆ Address the vital needs of the basic sectors, taking into consideration distinct and particular vulnerabilities of the following: PWDs, older persons, indigenous people, women and gender, workers in informal economy, and street dwellers. All COVID-19 interventions must be sensitive and responsive to the distinct needs and priorities of vulnerable individuals.</li> </ul>	<a href="https://www.facebook.com/UPResilienceInstitute/posts/250948842978280">https://www.facebook.com/UPResilienceInstitute/posts/250948842978280</a>	UP COVID-19 Pandemic Response Team	<p>What can the <b>DILG</b> do?</p> <ul style="list-style-type: none"> <li><b>ENSURE</b> that all LGUs are equally equipped to address the needs of their constituents</li> <li><b>MONITOR</b> LGU compliance with current rules and regulations</li> <li><b>ASSIST</b> and capacitate LGUs that may need some support</li> <li><b>FACILITATE</b> inter-LGU sharing of good practices</li> </ul>

2	<b>UP Los Baños</b>	Edible Landscaping Project- Start an EL garden today and have a ready food source	Starting your own edible landscape garden does not require a big space. From this small edible garden, one can harvest crops that will provide the following 17 possible nutrients that our body needs, according to Dr. Leila Africa of the Institute of Human Nutrition and Food of the College of Human Ecology. Whether one has or has no money, food source during the enhanced community quarantine remains a problem. A great way to ease the problem is practicing edible landscaping or growing your own crops in an aesthetic manner. Despite belonging to a "non-essential industry," Tourism Officers and Staff (TOS) assumed various roles in crisis teams of Local Government Units (LGUs). They have effectively mobilized their network and have demonstrated their conventional functions in several crisis settings to protect the lives of tourists and residents, and to ensure that the tourism sector will have a future.</p> <p>Last 21 April 2020, the UP Asian Institute of Tourism (UP AIT) organized its first Tourism Remote Town Hall. It was participated by seven tourism officers at the provincial and city/municipal level of their respective LGUs in Luzon and Visayas. They were invited in the online discussion to share their locality's experiences in dealing with the COVID-19 pandemic. While the results of the discussion does not necessarily represent the situation of other localities, the session allows us to have a good overview of the situation on the ground.</p>	<a href="https://web.facebook.com/UPAIT/posts/3179159822123914?_rdc=1&amp;_rdr">https://web.facebook.com/UPAIT/posts/3179159822123914?_rdc=1&amp;_rdr</a>	Asian Institute of Tourism (AIT)	 <p><b>TOURISM OFFICERS AND STAFF AT THE FOREFRONT</b></p> <p><b>PREVENTING THE COLLAPSE OF THE TOURISM SECTOR</b></p> <p>Tourism Officers and Staff (TOS) reported business losses due to the community quarantine and travel cancellations.</p> <p>Forgone tourism business meant livelihoods lost.
