FREDRICK N. NEMENZO, DSA Chancellor of the Philippine Office</p> <p>Through:</p> <p>PROF. BAL. THEODORA I. PAVONATIONS Vice-Chancellor for Academic Affairs University of the Philippines Diliman</p> <p>Dear Chancellor/Deans:</p> <p>Overalls of Solidarity</p> <p>We, the undersigned Heads of Provincial and Regional Organizations, assist in your goal after a completely unprepared typhoon, including academic activities and assessments for next weeks, starting November 2 to November 15, 2020. This is in relation to the upcoming Typhoon Rolly which is expected to hit our Philippines and all directly or indirectly in the Philippines and several other areas. The typhoon has been declared as potential to cause 100,000 deaths and 10 million injuries. The typhoon has already brought in the typhoon season to our Philippines.</p> <p>Last week, Typhoon Goni already hit communities in the Bicol, CALABARZON, and MINDANAO regions having already left most of the areas still not being affected. Consequently, due to frequent power interruption, students find it difficult to have access to their internet connection which is essential for their learning activities. Despite these, our students and faculty are still attending their classes and activities. We are concerned about the conditions of students' requirements and deadlines given to them. We will advise students from our provinces and will provide them with assistance, which have been in progress for the upcoming typhoon. We are already concerned that another typhoon will enter the country immediately after Typhoon Rolly.</p> <p>Our mandate as Representatives of our Organizations is to protect the interests and welfare of the students from the respective regions and their own and that of our organizations. We hope that the typhoon season will be over by November 15, 2020. We are requesting that the heads of the respective organizations and the University should consider the safety of the students. We are requesting that the University should consider the safety of the students. This is a request to suspend classes for the duration of the typhoon season. We are requesting that the University should consider the safety of the students and ultimately the community members in our provinces.</p> <p>We trust that you will be able to help the typhoon victims of our Philippines. We have the prayer that you will see that the University upholds its commitment to serving the people. Thank you for your consideration.</p>
