RECOMMENDATIONS

- To enable efficient tracking and collection of public service data based on their online postings, **UP Tacloban College can start implementing a labeling system** for its public service initiatives, which may involve designated hashtags such as **#PadayonPSReport and #UPTaclobanPublicService**.
- Given the reported low number of public service initiatives under Network and Linkages, it is recommended that **additional focus be made in terms of collaborating with various institutions and organizations** to boost the impact of its domestic and international public service initiatives.
- **Leverage the use of alumni networks and associations to provide valuable resources and opportunities** in building connections with organizations and communities

RECOMMENDATIONS

- Enhance existing community engagement programs through **outreach initiatives, donation drives, health and support services, and lifelong learning programs that directly benefit local communities.**
- If possible, **UP Tacloban College can also start tagging their public service-related initiatives in terms of sustainable development goals**, to gauge the strategic impact reach of each public service initiative.
- **UP Tacloban may also partner with the Padayon Public Service Office** for dissemination of their PS activities.
