RECOMMENDATIONS

- To enable efficient tracking and collection of public service data based on their online postings, **UP Diliman's social media pages can start implementing a labeling system** for its public service initiatives, which may involve designated hashtags such as **#PadayonPSReport** and **#UPDPublicService**.
- Other Initiatives (Student-Centered, Alumni-Led, and Direct Services) and Volunteer Programs and Community Engagements were the PS categories with the lowest initiatives. As such, we suggest that UPD **create more programs focusing on these initiatives**. However, it may also be a case of underreporting, in which case we recommend **highlighting more of those engagements on social media**.
- UP Diliman's social media pages may also start tagging their posts with the relevant sustainable development goals tackled by the PS initiative. **They may opt to use hashtags #SDG1, #SDG2, and so on.**
